Wonder Women 2023 Awards

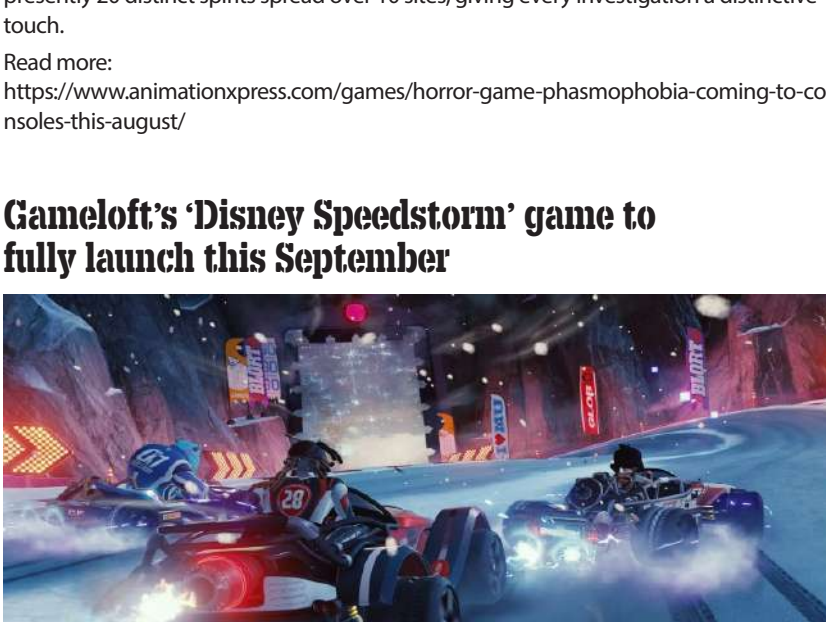

The recently concluded Indian Television (TV) Dot Com's Wonder Women witnessed the honouring and celebration of some of India's top women professionals in business and creative arts, inspiring women across industries by their efforts and hard work.

In April 2023, the awards honoured women in the fields of advertising, sports, pharma, music, travel and many other segments. Women in an animation, broadcast and OTT segments also won awards. In this year's edition of Wonder Women, Viacom18 Hindi mass entertainment and kids TV network head Nina Elavia Jaipuria and Citrus Ink founder & CEO Vinod Sood were awarded honours along with several other outstanding women leaders. Jaipuria was awarded as the Super Achiever, Sood was awarded the Trail Blazers while TV-Pen India's Vyomi Shah was awarded as the Emerging Leader.

ITP had initiated this event with the aim to create spaces that elevate, amplify and empower women and non-binary voices. The event honours women in three categories – Emerging Leaders, Trail Blazers and Super Achievers.

'Jawan' trailer out: Now Academy member Harry Hingorani serves as the VFX supervisor in the action-packed VFX-heavy film

Before we begin talking about the trailer of Jawan, let's address the elephant in the room – yes, this too is a high octane action flick like Pathaan, Scroogeyvandi and similar films the Hindi cinema has given us in the recent past. Are we excited for this one then? Let's break it down.

Jawan is an action thriller which outlines the emotional journey of a man who is set to rectify the wrongs in society. After Pathaan, Shah Rukh Khan is back with Jawan, produced by Gauri Khan and directed by Arun Kumar, a.k.a. Atlee. Apart from SRK, the movie stars Nayanthara, Vijay Sethupathi and Deepika Padukone (in a special appearance).

Horror game 'Phasmophobia' coming to consoles this August

Ghost-hunting horror game Phasmophobia is coming to PS5, Xbox Series X/S, and Switch on PS VR2. The game is only accessible for PC users for now because it's still in Early Access. Fortunately, that will soon change.

Various ghost-hunting instruments, such as Oulia boards, crucifixes and other ghostly elements can be seen in a new trailer. With the inclusion of optional crossplay compatibility, players will still be able to team up with other ghost hunters, regardless of platform, to battle the ghosts together in this edition of Phasmophobia.

The game was initially released in Early Access back in 2020 and has grown in popularity over time. Players work together in groups of up to four people in the psychological horror game to hunt ghosts using specialised equipment for detecting paranormal activity. The game now has 90 per cent good ratings on Steam, and it's reported to provide players with great levels of immersion with a really horrific experience. There are presently 20 distinct spirits spread over 10 sites, giving every investigation a distinctive touch.

Gameloft's 'Disney Speedstorm' game to fully launch this September

Disney Speedstorm will end its brief early access period on 28th September, 2023 and become available to all users.

In April 2023, the game entered a paid testing phase along with multiple support tiers costing from US \$29.99 to \$69.99. Early access benefits such as unlocked characters, credits and tokens will still be available to those who bought the game, but more players will now be able to compete.

According to the game's creator Gameloft, the decision to cease early access was made in order to "allow more players to share in a fully robust competitive and co-op racing experience" with the aim that the highly-accessible gameplay would increase the number of racers.

"Since the launch of Early Access, we've received invaluable feedback and support from our incredible community of players, who have been instrumental to the improvements made during Early Access," said Gameloft on social media.
